15 YEARS AWARD CONGRATULATION TO ANGELINE LEE AND AIPING

I am Angeline Lee which have been with Dextrans Worldwide Pte Ltd as Operations Manager for 16 years, I am surrounded by colleagues and supervisors who are wonderful team players, and whom have become a close family to me. They are responsible, professional, and hardworking, and strive towards delivering quality work in an efficient manner. They are also warm and considerate towards others, and readily offer guidance or advice. Towards our personal or family needs, they are understanding and empathetic, and we share each other's workload. We have become a close family and look out for one another at work and outside of work. This makes work at this company and department really enjoyable for me, as I feel well-supported and treasured as part of a team and a family. It also motivates me to support my fellow colleagues better, as well as to continue producing quality work.

Another important factor is that this workplace has a no-blame culture, which I believe creates a conducive environment for employees to learn from mistakes and strive for better work quality. One impressionable instant was when I once made a blunder which resulted in some losses to the organisation. My superiors stepped in promptly and we worked quickly to resolve the situation as best as we could. Throughout the incident, there was no finger-pointing, reprimand or penalisation. I was briefed about the mistake made in a fair and objective manner, and advised on how to avoid such mistakes in future.

I also enjoy my job and role, and feel that work is fulfilling. My job allows me to have diverse challenges and experiences, which keeps me engaged and motivated. The company provides opportunities to equip employees with new skills and helps us develop. The company also shows appreciation for our hard work and advocates timely recognition of our contributions.
